

Nuosu SIL - Character Set Support

Nuosu SIL includes a complete set of Yi syllables and radicals, along with punctuation and other useful symbols. Chinese punctuation used in Yi texts, and a basic set of Latin characters, are included as well. Inclusion of a basic Latin repertoire is provided as a convenience, e.g., for use in menus or for displaying markup in text files. These fonts are not intended for extensive Latin script use.

Supported characters

The following character ranges are supported by this font:

Unicode block	Nuosu SIL support
C0 Controls and Basic Latin	U+0020..U+007E
